

SR 204 at King George Boulevard

Location: Chatham County, Georgia
Client: Georgia DOT
Type: Major Road Safety and Operational Improvements, New Interchange
Funding: Federal, State and Local

Project Information:

- The project consists of 2 miles of improvements to SR 204 from Pine Grove Road to Veterans Parkway.
- Improvements include the conversion of the existing, signalized intersection at King George Boulevard to a grade separated interchange.
- Original scope of project included 7 miles of roadway; entire project corridor was studied extensively from 2005-2009. Conceptual layouts and cross-sections were developed. The environmental and traffic studies address the entire 7-mile corridor.

Scope of Services:

McGee Partners' responsibilities included:

- Preparation of GDOT Concept Report and Layouts
- Extensive Public Involvement
- Database Development
- NEPA Environmental Studies and Documentation (EA/FONSI)
- Preliminary Construction Plans
- Right Of Way Plans
- Right Of Way Acquisition
- Final Construction Plans
